SUSTAINABILITY,
SUPPORT, SPEED

and enjoyed worldwide.

KEEP IN MIND

KEEP BROWSING!

Additional photos, information, and styling ideas are available online. Visit [DecorativeFilm.com](https://www.decorativefilm.com) or scan QR code (opposite) to take your inspiration even further.

FREE SAMPLES

Find a few films you like? Order free 5"x7" samples and larger 8"x10" multipacks of our most popular designs directly from each product page. See page 7 for more details, and to order multiple samples at a time.

CREATE AN ACCOUNT

Decorative Films is your project partner. Create an account to organize different projects easily, build a wish list of favorite films, order samples, and reorder quickly. See page 6 for more details.

SHIPPING + AVAILABILITY

From skyscrapers to single windows, there's no limit to what we'll do for our customers. All films are kept in stock and ready to ship worldwide out of our Maryland warehouse. Most orders ship within 24 hours of order receipt.

WARRANTY

We offer an industry-leading warranty program that guarantees our products with every purchase. Warranty coverage varies by product and application, with some warranties extending up to 10 years with proof of purchase.

GLOBAL DEALER MAP

Are you an installer or window film professional looking to connect with Decorative Films customers in your area? Visit bit.ly/installermap or scan the QR code on page 7 to add your business to our interactive dealer map.

SUSTAINABILITY

We are committed to providing our customers with the highest quality window film while also prioritizing sustainable manufacturing practices. Our team is continually exploring and experimenting with new technologies, such as our PVC-free base materials and sustainable adhesive coating formula, to improve product performance and reduce carbon emissions without compromising quality. For more information, visit [decorativefilm.com/sustainability](https://www.decorativefilm.com/sustainability).

ORGANIC

ORGANIC

Meet the Organic Collection by Decorative Films, where soft, organic patterns provide elegant privacy solutions using nature-inspired designs. The featured films embrace life's imperfections, incorporating organic textures that evoke the gentle irregularity of natural forms.

In this collection, sharp, organic elements are softened and made airy with decorative designs that draw inspiration from nature, emulating woven textiles and botanically-themed images to create light-filtering privacy. Simulated glass-effect window films capture the intricate details and subtle variations of natural glass, transforming clear views into artfully blurred, textured designs that seem to capture the passage of time or the movement of wind.

With the Organic collection, ordinary glass can easily be transformed into something extraordinary, adding richness, texture, and interest to any space. Whether you're looking to create a peaceful retreat in your home or a sophisticated, natural ambiance in a commercial setting, this collection offers versatile and stylish solutions that blend the practical need for privacy with a desire for a beautiful and harmonious interior.

Find exceptional products that draw inspiration from the world around you with Decorative Films.

The most versatile solution for all your specifying needs.

Decorative privacy window films are an energy-efficient, cost-effective, and versatile solution for controlling light filtration, offering surface protection, providing privacy, and ensuring peace of mind. Our unique and intelligent designs and functional products provide safe solutions for schools, healthcare facilities, major transportation hubs, and more. Whether you're retrofitting a current building or working with new construction, our decorative privacy window films offer flexible and cost-saving solutions to common design needs for interior and exterior installation. With over 700 skus and endless custom design opportunities, our product applications are limitless. Look no further than film for your architectural and design needs.

At Decorative Films, we pride ourselves on being an industry leader in the manufacturing and distribution of window films for various applications such as design, solar control, sustainability, and privacy. Family-founded with over 40 years of experience, our business has served residential and professional customers in the glass coating and solar control window tinting industries since 1979. Our trusted brands, including SOLYX®, SimGlass®, UltraCool®, UltraSafe®, UltraGreen®, and UltraGlare® films, provide affordable, approachable solutions to common architectural and design requests.

Decorative Films is renowned for delivering remarkable product quality and unparalleled customer support. With a sales and installation network of over 2,850 dealers throughout the USA, as well as major global distributors in Europe, the Middle East, Italy, India, and Australia, our team is devoted to product innovation, upholding high-quality standards, manufacturing efficiency, and providing a diverse product lineup. Our reputation precedes us as a leader in privacy window film solutions, offering various applications and made-to-order designs that cater to the varied needs of our customers. This is exemplified by our extensive portfolio of products, consistent stock position of more than 50,000 rolls of ready-to-ship film, and a noteworthy customer list, including household names like Microsoft, Apple, Walmart, Bank of America, ABC, Fox, and Disney.

No matter what your solar control, privacy, or design challenge may be, whether you're seeking solutions for new construction, retrofitting, or renovations, we are confident that our films can provide the solution you need. Our films offer year-round beauty, lifelong durability, and nearly limitless design possibilities—all delivered quickly and with cost-effective pricing. At Decorative Films, we see windows in a whole new light. And decade after decade, we're working hard to help our customers do the same.

Decorative Films is proudly USA-designed and manufactured, with an extensive selection of products solely fabricated and fulfilled from its headquarters in Frederick, Maryland. Our company exists largely to support the amazing, hardworking team behind the scenes in our warehouses, offices, and production lines. Every order received contributes to the prosperity of our employees and their family members. We know you have a choice of where you shop and specify; thank you for supporting our team and trusting us with your decorative privacy needs.

SPECIFYING & ORDERING FILM

HOW TO USE THIS BOOK

Enclosed are the top-selling patterns in our Organic collection. The front of the book showcases the ten most popular organic patterns, each featuring a sample pocket to make specifying a breeze. The remaining top sellers in this category are located on the pages behind these pockets. To view our full collection, please visit [decorativefilm.com/organic](https://www.decorativefilm.com/organic) or scan the QR code below. Need a place to store other organic pattern samples? We've added an extra sample pocket to the back of the book for your convenience. To request additional books featuring our other window film categories, please visit <https://www.decorativefilm.com/accessories-solyx-catalogs> or view our collection catalogs digitally.

SETTING UP AN ACCOUNT

To take advantage of these benefits, visit <https://bit.ly/decfilmswholesale> and sign up for a free wholesale account for our dealer customers. There, you can view a digital version of our catalogs, order samples, receive custom pricing, and learn more about our products and services. Architects, designers, and residential customers can visit <https://www.decorativefilm.com/create-an-account> to create an account.

CHECKING SPECS + SPECIFYING FILM

We're here to make specifying as simple and streamlined as possible. All films' full specifications and technical data are available online. For film costs, opacity, durability, fire ratings, size options, and more, review the individual product pages at [DecorativeFilm.com](https://www.decorativefilm.com) or by scanning the associated QR code on products featured in this book. If you can't find what you need on our site or would like to place a custom film order, contact our dedicated support team at info@decorativefilm.com or by phone at 888-657-5224 x1.

▲ To view the entire Organic Collection, visit [DecorativeFilm.com/Organic](https://www.decorativefilm.com/Organic)

▲ To view available catalogs, visit [DecorativeFilm.com/accessories-solyx-catalogs](https://www.decorativefilm.com/accessories-solyx-catalogs)

▲ To set up your business account, visit <https://bit.ly/decfilmswholesale>

Ordering Samples

We understand that our customers' time is valuable, and a quick turnaround can be a deciding factor in winning a project bid. That's why we offer professional and industry customers 5"x7" product samples and expedited 2-day shipping at no charge. For everyone else, we offer the first five samples free, with discounted priority shipping rates.

This book is one of several new product catalogs, each organized by collection family and preloaded with larger-format 8"x10" samples of our most popular films. Refills and multipacks of these films and other best-selling patterns are available upon request, with free 2-day shipping.

Ready To Order?

^ To browse our products and place an order, visit DecorativeFilm.com

^ Dealers can order multiple samples at <https://decfilmdealer.com>

^ Architects and designers can order samples at bit.ly/specbooksamples

^ Watch our installation tutorials at bit.ly/howtoinstall

^ Get connected with installers in your area or update your listing at bit.ly/installermap

SOLYX iQ

Custom solutions, endless possibilities.

Our Solyx® iQ custom-made films give you the freedom to create something unique. With our large-format production, we can produce seamlessly repeatable patterns, perfectly smooth fading gradients, and paneled-out graphics in a variety of colors, sizes, and opacities. When it comes to custom window film, no other company compares. Bring your one-of-a-kind design to life with Solyx iQ by Decorative Films.

ANY REQUEST, EVERY BUDGET

- **Extended Warranty:** All Solyx iQ projects come with a 10-year commercial warranty for interior applications.
- **Exceptional Support:** Our in-house art department offers support every step of the way.
- **Cost-Effective:** Create bespoke designs for a fraction of the cost of custom glass or window shades.
- **Surface Protection:** Protect what matters most with features like UV coatings and shatter-resistant safety films.
- **Non-invasive:** Our films have a clean, removable adhesive system, so you can feel safe knowing they will not harm your glass.
- **Easy Retrofit & Install:** Custom films are long-lasting and easy to install, making them a perfect solution for retrofitting spaces with designs that can be replaced or redesigned later.
- **Optical Clarity -** Unlike the competition, our base films are made of optically clear, sustainable polyester – not vinyl – ensuring your design has a crystal-clear finish.
- **Fast Turnaround:** Our facilities can produce more than 15,000 square feet of custom-printed film on a given day, meaning lead times for most projects are days, not weeks.

Specifying Custom Film

Custom-printed glass films are a surprisingly easy way to transform ordinary glass into architectural centerpieces.

When creating a custom film, the customer's request must contain the project scope, design, and finish type before samples or a unique product code can be issued for the project specification. To get started on a custom order and request additional information, complete our brief Solyx iQ inquiry form at <https://bit.ly/solyxiq>.

Organic Cotton **SX-3146**

Solyx® SX-3146 Organic Cotton features delicate, intersecting asymmetrical lines that weave throughout the pattern, simulating the rich texture of muslin cotton. Creamy neutral whites blend into the foreground to subtly draw the eye to the space between the lines, authentically mimicking the appearance of finely interlaced textiles. The resulting effect is a soft, organic finish offering ample privacy and light transmission.

Glazed Leaf SGD-6006

Solyx SimGlas® SGD-6006 Glazed Leaf employs the absence of color to create an elegant fallen leaf pattern. This mostly frosted film features an opaque surface with a scattering of inversely imprinted leaves measuring approximately 6" x 2". This film is an excellent example of the Organic Collection, offering exceptional privacy, ample visible light transmission, and a highly decorative yet tastefully understated design.

Matte Washi SX-8281

Fibrous white tendrils lace through Solyx® SX-8281 Matte Washi with unexpected authenticity. As if the plant material were woven into the film itself, this illusionary pattern creates an alluring effect that's richly textured yet delicate and balanced. An exceptional solution for architectural applications where privacy is at a premium, this film softens surrounding design elements with crisp dimensionality that beautifully diffuses natural light.

Brushed Matte SX-5042

Solyx® SX-5042 Brushed Matte features sharp, white brush strokes layered atop a frosted backdrop. The imperfections in each stroke offer an artistic intentionality that emulates striations in smoothed metals or lightly impressed paint on canvas. The effect creates a balanced, calming privacy solution that elegantly distracts and obscures visibility without barring views or tampering natural light.

Transparent Fiberglass SX3-9004

Solyx® SX3-9004 Transparent Fiberglass is a semi-transparent, white rice paper film with a soft, decorative crosshatch design. Subtle fiberglass-like lines weave atop a semi-opaque background at random intervals, offering good light transmission. This film is an excellent alternative to frosted films when obscurity is desired, but privacy isn't the primary concern.

White Spring Buds SX-5020

Solyx® SX-5020 White Spring Buds is a beautifully designed polyester film with a silhouette pattern of budding, frosted white branches on a clear, transparent background. Fine details of tiny buds and intertwining branches capture the delicate and ephemeral charm of early spring. The pattern is an exceptional distraction barrier, with the floral motif seemingly scattered at random throughout the design, effectively obscuring views and increasing privacy.
