

SOLYX® Glass Finishes

SX-SC555 Titanium Sand

Product Description

SOLYX® SX-SC555 Titanium Sand is a translucent, colored static cling film that simulates sandblasted glass, providing obscured visibility and good light transmission.

Specifications

Product Code	SX-SC555
Product Family	Frosted
Film Type	Polypropylene
Adhesive Type	Non-Adhesive Static Cling
Usage	Interior
Available Width(s)	35"
Thickness	+/-8 mil
IR Transmission	24%
Visible Light Transmission	19%
UV Transmission	4%
Absorption	45%
Total Solar Energy Rejected	56%

Product Construction

Face Film

8 mil Polypropylene

Adhesive

Non-Adhesive Static Cling

Release Liner

Transparent Synthetic

Product Details

SOLYX® SX-SC555 Titanium Sand is a translucent, textured, dark bronze static cling film that simulates sandblasted glass. Manufactured from durable polypropylene, it is supplied with a clear release liner and is recommended for application to interior glass, exterior glass (inside surface), plastics, and polycarbonate sheets. This fully removeable and reusable non-adhesive film is ideal for privacy, decorative, or architectural applications to reduce glare and provide obscured visibility and shading.

Flammability Rating

This product meets ASTM E84 and is classified as Class A as defined in NFPA 101, Life Safety Code®.

LEED Credit EQ 4.1 Low Emitting Materials, Adhesives & Sealants

This product has zero VOC content according to 40 CFR 59, Subpart D (EPA method 24).

Installation and Warranty

Installation

Installation should be in accordance with the manufacturer's installation instructions. This film is applied using the same tools and techniques used for installing window tinting films.

Warranty

This SOLYX® product will be free from defects in material and manufacture for a period of five (5) years from the date of installation. See warranty information for specific details.
